

QUATTRO GIGLI

Where and when:

Around 10 minutes away in Montopoli this traditional hotel is just packed full of authentic and interesting features. It's been delighting tourists for many years with its unique restaurant style and although perhaps a little expensive in the price range it's definitely worth a visit.

Classic dishes and a large wine list characterise this restaurant whilst it's setting is simply breath-taking. Immediately opposite the hotel is public parking around 200m away.

Driving Directions

Turn right from Le Sodole, then left uphill and left at the top. Pass Amedei and go over the railway bridge before turning right.

This takes you to the main road between Pontedera and Montopoli - turn right and go straight (at all junctions) until you find yourself in the narrow street of Montopoli.

Quattro Gigli will appear on your right.
