

SAN MINIATO

Described by one guide as:

“The perfect stop for a stroll back in time”. San Miniato will appear to you as travel between Florence and Pisa in the Fi-Pi-Li and while staying at Le Sodole you will see it often.

You'll wonder “where is that?” and if you find a moment to visit, it's not far, then you will not fail to enjoy the relative calm compared to other destinations you will visit.

As you walk around the historic town, where you will encounter a wide range of monuments which have been remodeled and renovated, the atmosphere is enchanting and will give you the perfect opportunity to stroll around, purchase a few gifts and admire some beautiful panoramic views between Pisa and Florence.
